#	Topics Discussed	Conclusions/Actions	Action Owner
1	Should we start reaching out to eminent people of local area to socialize our initiative and gain their moral support.	At this stage individuals will reach out to some locally well-respected people and let them know about our initiative. After some days of the initial talks we can have a coordinated group call with them if required. If we get their support, we need to ask for a photo of them to be used in our video message based on their permission. Make sure we explain them the purpose of the picture. It is just to show that they support the cause.	All Attendees above
